Availability

Workshop time is scheduled through the contact form found on the Class Calendar page through the website. The shop has room only for 3 people at a time. The calendar will be constantly updated as members submit times of shop time.

What's included in the membership?

With membership to the shop it includes:

- Workshop tools & facilities
- Borrowing the safety gear (safety glasses & earmuffs)
- Clamps
- Marking and measuring tools

What's not included with membership:

- Finishes
- Specialized tools (router bits, drill bits, etc.)
- Dust mask or respirators (must have your own)

Storage for project parts and tools

You can store your project parts in the back-storage room by the month based on availability. Also lumber & plywood storage is based on availability by the month.

- Project storage \$50/month (anything larger than a coffee table)
- Lumber/plywood storage \$40/month (access to MemberSHOP plywood bin for all members + 1 shelf on the lumber rack per member)
- Larger project storage can be purchased but subject to availability and dependent on space required

For tool storage I recommend getting your own tool chest on wheels to store them. This way they can be moved around the shop and kept in one area when you are not here. Also, they can be locked up if needed this way.

Cancellations & Refunds

You can cancel or reschedule a shop time up to 8 hrs in advance to the reserved time by contacting me by email or phone. Cancellations will be refunded fully in the form of credit towards another time period.

There will be a \$50 fee if a cancellation is made within 8hrs of booked time.

CT woodwork reserves the right to cancel booked shop times in case of unplanned instances. You will be given notice 12hrs ahead and receive full credit for a new booked time.
